

Susan E. Rosengrant HB 5327

To Whom It May Concern,

I am writing in support of Bill #5327 An Act Concerning Health Freedom & the Practice of Classical Homeopathy.

It is my belief that the public should have access to practitioners of Alternative Healing methods such as Classical homeopathy. My health has been benefited from classical homeopathy and I know a friend who was diagnosed with West Nile Virus and told she was never to walk again. She is walking albeit sometimes with a cane for long hikes, and she utilized classical homeopathy and other alternative healing modalities to regain her independence. She had to go out of state to get this alternative care.

I understand that archaic laws currently prevent highly trained and certified classical homeopaths to practice in Connecticut and this law would rectify the situation.

Thank you for your consideration on this important matter.
